Classes

Temper Tantrum
Our signature full-body sculpt class. Expect a high-energy mix of Pilates-inspired movement, strength training, light weights, resistance work, and bodyweight exercises designed to target your arms, core, glutes, and legs.

This class focuses on building strength, improving endurance, and creating that deep muscle burn through controlled movements, pulses, and holds.

Intensity: Moderate–High
Targets: Full Body
Level: All Levels

CRASHOUT
Our strength + sculpt class designed for those who want to turn up the weight. Using slightly heavier dumbbells, this class combines strength-focused exercises with controlled sculpting movements to challenge your muscles and build full-body strength.

Expect slower, stronger movements, heavier resistance, and plenty of burn while targeting your arms, core, glutes, and legs.

Intensity: High
Focus: Strength + Full-Body Sculpt
Level: All Levels

Silent Treatment
Our stretch + restore class with a more traditional Pilates feel. Slow things down with intentional movement, classical Pilates exercises, deep stretching, and mobility work designed to lengthen, strengthen, and reset the body.

Expect a lower-impact, controlled flow focused on core connection, flexibility, posture, and recovery. It's the perfect class for active recovery days or whenever your body needs a little extra care.

Intensity: Low
Focus: Classical Pilates + Stretch + Restore
Level: All Levels
